# RYAN WHITE

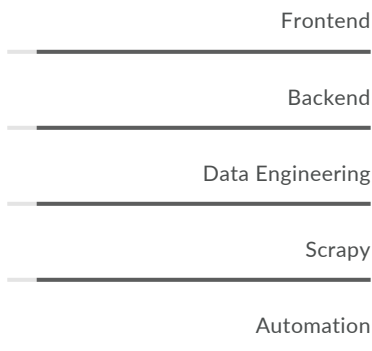

## ABOUT ME

Senior Fullstack Developer and Data Engineer with over 6 years of experience building scalable web applications and data pipelines. Proficient in fullstack technologies (e.g., JavaScript, React, Node.js, Python) and data engineering tools (e.g., Apache Spark, Kafka, SQL, AWS/GCP). Passionate about delivering efficient, data-driven solutions and mentoring teams to achieve impactful results.

## EDUCATION

University of South Carolina  
Bachelor of Computer Science  
2014 - 2018

## EXPERTISE

## WORK EXPERIENCE

2019 - 2022 DartPoints

### Data Engineer

- Developed and optimized ETL pipelines to process and analyze large datasets using Apache Airflow, Apache Spark and Hadoop.
- Developed and optimized real-time data pipelines to process streams using Apache Kafka and Apache Flink
- Designed and implemented data models to support analytics and reporting in a cloud-based data warehouse.
- Automated data ingestion from various sources using Python and SQL, reducing processing time by 30%.

2023 - 2024 Pivotal IT

### Fullstack Developer

- Developed and maintained scalable web applications using React, Vue and Node.js.
- Implemented RESTful APIs and integrated third-party services for enhanced application functionality using Node.js, Django and Laravel.
- Collaborated with cross-functional teams to design and optimize user-friendly interfaces.

2015 - Self-Employed | FullStackHorizon

### Freelancing

- Designed and implemented scalable web applications, RESTful APIs, and data pipelines, improving client operational efficiency by 35%.
- Developed and maintained ETL processes, data warehouses, and cloud-based infrastructure (AWS, Azure, GCP) to support data-driven decision-making.
- Delivered end-to-end solutions, including front-end (React, Vue), back-end (Node.js, Python), and database systems (SQL, NoSQL).
- Collaborated with cross-functional teams to architect and deploy big data solutions.
- Achieved a 90% client retention rate through high-quality deliverables and proactive communication.
